# CASH INFINITY

The Cash Infinity System is built using high performing Banknote/Coin recycler equipment and cash inventory management software, delivering real-time central supervision of cash.

- The cash office management system supports all processing, dispensing and reconciliation operations
- In-store cash recycling reduces overall cash inventory and bank charges
- Cash drawer reconciliation, a tedious and time consuming task for retailers, is dramatically improved

## Banknote Recycler (RZ Series)

High performance RZ banknote recyclers provide secure and efficient processing.

- Able to count and dispense mixed note bundles for reconciliation processing, change fund make-up and banking preparation.
- Secure storage of authenticated bank notes in the collection cassette.
- Safe-quality protection of notes improves overall cash office security.

## Back Circle Software (BCS)

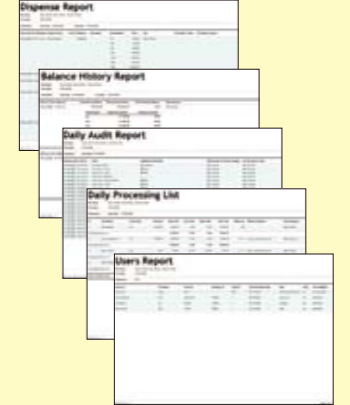

Functionally rich and highly flexible, the system is simply configured to your store's operational needs.

Intuitive touch-screen interface is easily adopted by cash office and store sales staff.

If an error occurs, terminal screen can show the troubleshooting animation to remedy the problem. You won't have to call maintenance staff.

Comprehensive report suite as standard, with option to customise.
