

## New Generation Coin Sorting Machines by REIS

CS 3320

CS 3321

## Reliability in Coin Sorting

Coin sorting today requires higher reliability. Coin circulation is constantly increasing and at the same time, one finds more fake coins than ever. As a result, there is an increasing demand to banks and professional cash handling organizations for more secure and exact coin sorting. REIS has ordered its experienced engineers to redesign well known „Selectric“ coin sorting machine to perfectly meet the challenges today and in the future. The backbone, the REIS Coin Detection System was completely redeveloped. The recognition capability has reached the limit of what is technically feasible. The reliable concept of sorting by dimension of the coins has been retained, where the choice of new materials results in more environmental friendly components. The new ergonomical user interface allows faster and more simple inputs and better recognition of counting results. REIS has developed new quality solutions for coin sorting. New Selectric CS 3320 and CS 3321 (with escrow) offer real value for money.

## Specifications

Common features CS 3320 and CS 3321	
Recognition:	Up to 9 coin values
Drawers:	9 separate pockets + 1 reject box
Capacity:	Hopper Approx. 700 pcs (10 cent) Drawer Approx. 1000 pcs (10 cent)
Sorting Speed:	Up to 600 coins/min.
Coin Recognition:	RCDS 3/RCDS 4
Power Supply:	220 - 240 V, 50Hz; 100 - 120 V, 60 Hz
Power Consumption:	Approx. 100 W
Noise Level:	72 dB (A)
Printer:	External, optional
Additional Display:	External, optional

## Coin Handling by REIS

REIS is one of the leading companies in the world for professional coin handling solutions. REIS is a member of GLORY Group.

## Improvements through Redesign

Redesign of successful coin sorters „Selectric“ leads to great improvements in many details.

- Higher accuracy through better manufacturing tolerances
- Longer product life through new materials
- Even more reliable coin recognition through digital technology
- Better ergonomics through modern user interface
- Environmental safety through recyclable materials

New Selectric CS 3320 w/o and CS 3321 with escrow are the best choice for small and medium amounts of coins to be sorted.

- Secure
- Reliable
- Durable

CS 3320 (w/o Escrow)	
Dimensions (W x H x D):	662 x 470 x 305 mm
Weight:	Approx. 30 kg
CS 3321 (with Escrow)	
Dimensions (W x H x D):	662 x 575 x 305 mm
Weight:	Approx. 35 kg
